

Ashwini Nikam

Java Developer

ashwini.n@tech-emails.com | [GitHub](#) | [LinkedIn](#) | 4012179825 | California, Dublin

SUMMARY

- 4 years of experience in the Design, Development, and Testing of Object Oriented, and Web-based Applications using Java/J2EE technologies.
- Good knowledge of working in both an Agile and Waterfall environment.
- Good understanding of frameworks such as Spring MVC, JSF, Hibernate and build tools such as Gradle and Maven.
- Ability to develop and design web applications utilizing Core Java, J2EE, JSP, Servlets, Java Beans, EJB, JSF, Spring, Spring boot, Hibernate, Web Services, JDBC, XML, HTML, CSS, DHTML, JavaScript, JSON, Ajax, jQuery.
- Well-Versed in different development IDE tools such as NetBeans and IntelliJ IDEA.
- Good knowledge of Java, and J2EE technologies such as JDBC, Servlets, JSP, JSF, Web Services, Hibernate, JMS, XML, and AJAX.
- Working knowledge of developing applications using Different Application Servers WebSphere and Apache Tomcat.
- Capable of relational database management systems RDBMS including MySQL, Oracle, and PostgreSQL.

EDUCATION

Master of Science in Computer Science | International Technological University, Santa Clara, CA

Bachelor of Engineering in Computer Engineering | University of Pune, India

SKILLS

Methodology: SDLC, Agile, Waterfall

Languages: Java, SQL

Frameworks: Spring MVC, Spring Boot, JSF, Hibernate, Spring

IDEs: NetBeans, IntelliJ IDEA

J2EE Technologies: Servlets, JSP, JSTL, JavaBeans, JDBC

Web Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, XML

Application Server: Apache Tomcat, Web Sphere

Databases: MySQL, PostgreSQL, Oracle

Build /Other tools: UML, MS Visio, Maven, Gradle

Version Control Tools: Git, GitHub

Operating Systems: Windows, Linux

EXPERIENCE

Hartford Financial Services Group, CA | Nov 2022 – Current | Java Developer

- Work on the development and testing of the infotainment module using Agile methodologies.
- Design and Coding of various Java, and J2EE modules like Spring Boot, Spring MVC, and Spring Rest.
- Automate test cases using the built-in framework in Selenium Web Driver using NetBeans IDE.
- Write Servlets programming and JSP scripting for the communication between the web browser and server.
- Designing and developing Customer registration and login screens using JSP, HTML, CSS, and JavaScript.
- Using Maven to build and Apache Tomcat to deploy the application.
- Documented the current database schemes either in Oracle or PostgreSQL using Erwin.

BrownFrame Technologies, India | Jan 2020 - Dec 2021 | Java Developer

- Used Spring Boot Actuator to monitor and manage the application in a production environment.
- Developed the UI Screens using JSP, JavaScript, and HTML and did the client-side validation with JavaScript.
- Involved in analysis, design, and developing middleware using Servlets, JavaBeans, Hibernate, and springs and doing enhancements and issue resolutions.
- Developed server-side utilities using J2EE technologies Servlets, JSP, and JDBC using JDeveloper.
- Involved in troubleshooting the IBM Web Sphere application server issues.
- Developed bug management system for internal usage, using MySQL, and Bootstrap.
- Worked on Java, and Maven projects with Hibernate framework for developing new features and modification requests.

TopHat Software Technologies, India | May 2018 - Dec 2019 | Java Developer

- Utilized Software Development LifeCycle (SDLC) like Waterfall to configure and develop processes and standard procedures.
- Worked with Spring MVC and Hibernate in the backend to build the business logic.
- Implemented JDBC for mapping an object-oriented domain model to a traditional relational database.
- Implemented JSP in Presentation layer programming using JSTL, Ajax, Development
- Worked on the jQuery JavaScript Library that simplifies HTML document traversing, and event handling.
- Involved in designing and creating the Database Tables using PostgreSQL Database.
- Used Maven to build and generate code analysis reports.
- Used Git as source code version control.
